PROFILE

I'm specially Mern Stack, passionate about creating dynamic, user-friendly web applications. My expertise spans across MongoDB, Express.js, React, and Node.js, allowing me to build robust full-stack solutions from the ground up. I thrive on solving complex problems and continually honing my skills to stay updated with industry trends. Whether working on a sleek front-end interface or developing efficient back-end systems.

WORK EXPERIENCE

Backend Developer   2023 - 2024
Digital Site Pro - Agency
- Design model of database, create REST API, user authentications, and follow MVC architecture.
- Ensure for security use .env & secret access to a safe database from hacking, and use http-error for any error handling.

MERN Stack Developer   2022 - 2024
Local Market
- Developed and maintained responsive web applications for a variety of industries, including e-commerce, digital agencies, personal blogs, and portfolio websites.
- Collaborated with backend developers and UX/UI designers to enhance user experience and ensure seamless functionality.

ACHIEVEMENTS

Industrial Attachment Training   July-2024 - Present
Daffodil Computers Ltd.

JOB REFERENCE: SENIOR BACKEND DEVELOPER

Dear Hiring Manager

I am excited to apply for the Web Developer position at [Company Name]. With experience in the MERN stack (MongoDB, Express.js, React, and Node.js) and a background in building responsive web applications, I am confident I can bring value to your team.

At Digital-Site-Pro Agency, I developed solutions for e-commerce and digital platforms, collaborating closely with designers and backend teams. My ability to solve complex problems, coupled with a passion for staying current with industry trends, makes me eager to contribute to your company's success.

Thank you for considering my application. I look forward to discussing how I can support your development goals.

Sincerely

Md Akbar Hossan
